REASONS FOR ALLOWANCE

1. Claims 1 and 4-14 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claim 1 is allowable over the prior art for at least the reason that the prior art fails to teach or reasonably suggest, "wherein a film of the underlying layer contacting the reflection layer is a TiO_2 film" as set forth in the claimed combination. Claims 4-14 are also allowable based upon their dependence on claim 1.

The prior art of record, Bayer et al and Fujii teach a reflection mirror comprising a substrate an underlying layer formed on the resin substrate, the underlying layer including at least one TiO_2 film and at least one Al_2O_3 film, wherein a film of the underlying layer contacting the resin substrate is a TiO_2 film; a reflection layer composed of an Ag film formed on the underlying layer; and a protective layer formed on the reflection layer, the protective layer including at least one TiO_2 film and at least one Al_2O_3 film. However, the prior art of record does not teach that a film of the underlying layer contacting the reflection layer is a TiO_2 film and there is no teaching or motivation to modify this difference as derived.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
